3. Focus of the Call #8. Development of rural interethnic communities

3.1. Context

Despite the progress registered during the last 10 years, the persistent poverty and extensive inequalities have significantly affected the achievement of the social justice and inclusion of vulnerable groups. Major challenges for Romanian society remain in terms of progress reaching equitably vulnerable groups largely affected by poverty and social exclusion (31.2% of the population – [Eurostat, 2019](#)). Children (38.1%) and youth aged 18-24 years (36.7%) remain the groups most affected by poverty and social exclusion ([Eurostat, 2018](#)). Specific challenges concern the rural-urban gap in social services offer, which are almost unavailable in rural communities, as well as the focus of State support on cash benefits as opposed to active measures such as community services. There is a limited involvement of local authorities, communities as well as vulnerable groups in implementing local solutions to reduce inequalities.

The gap between the Roma and non-Roma population in terms of education, access to social and medical services, housing conditions, occupation/ inclusion on the labour market, quality of life, still exists ([Romanian Government Strategy for the inclusion of the Romanian citizens belonging to Roma minority 2014 – 2020](#)). Residential and school segregation of a discriminatory nature, forced evictions, limited or non-existence of consultations with Roma people on issues concerning them, material deprivation, the fact that statistics related to Roma population are worse off than the rest of the population in almost every aspect of life are among the issues signalled by the [UN Human Rights Council Special Rapporteur on extreme poverty and human rights](#).

The risk of poverty and social exclusion is higher in rural and small-town areas, while in urban areas there are compacted communities with low access to services. According to the [2017 SOCIOROMAP](#) research, there is an estimated number of 724,844 Roma living in Romania in compact settlements of different sizes. Around half of this population lives in 504 compact communities with over 100 households. The majority of these localities are rural (communes, villages), with an average number of 510 Roma persons.

All these barriers in achieving social justice and social inclusion needs to be addressed through integrated and inclusive approaches and with priority in underserved areas and for underserved target groups, in rural inter-ethnic communities where one of the communities is Roma.

Eligible Applicants and that are not in any of the exclusion situations mentioned above, from a) to e), in the sub-section 4.3.2 within Exclusion criteria for Applicants.

In case of projects selected for funding, the Applicants will be requested to submit an updated **Declaration of eligibility**. The FO reserves the right to request the Applicant any kind of documents in support of the Declaration. The analysis of the eligibility of any Applicant or partner will be made on individual basis, with the consideration of the specific documents presented. In this sense, the Fund Operator reserves the right to appreciate *in concreto* each situation and decide based on its own judgement upon the eligibility, of any Applicant or partner. In case the Fund Operator will decide that the eligibility criteria are not fulfilled, the applicant and/ or partner will be informed upon the rationale standing for the decision.

4.4. Eligible project partners

Projects may be implemented in partnership with project **Partners**. Project Partners shall share a common economic or social goal with the Applicant, which is to be realised through the implementation of the project. Partners shall be actively involved in and effectively contributing to the implementation of the project.

Partnerships are not mandatory, but highly encouraged, especially with Partners from the Donor States. The following legally established entities are **eligible to be project partners**: any **non-governmental organisations, public entities** (such as local and central public authorities, public institutions /agencies, decentralized governmental public services, territorial administrative units, universities, etc.) as well as **private entities** (commercial or non-commercial), established as a legal person either in: **Romania, Donor States** (Norway, Iceland, Liechtenstein), **Beneficiary States** (Bulgaria, Croatia, Cyprus, Czech Republic, Estonia, Greece, Hungary, Latvia, Lithuania, Malta, Poland, Portugal, Slovakia and Slovenia) and/or **Countries outside the European Economic Area that have a common border with Romania** (Moldova, Ukraine and Serbia), any **international organisation or body or agency** thereof.

Only the following entities are **eligible to receive funding as project Partners** under the Programme:

- NGOs that meet the eligibility requirements set for the Applicants under section 4.2.2 and are not in the situations specified under section 4.3.2 a)-e) nor are among the not eligible applicants mentioned in the section 4.3.1 c) – h) Exclusion criteria for Applicants;
- international organisations or agencies or bodies thereof (international intergovernmental organizations or international non-governmental organizations);
- public entities

Other types of partners may not have access to the grant, but may contribute to the activities and/or to the co-financing required for the project.

The **Declaration of eligibility** submitted by the Applicant with the project proposal will also certify the fulfilment by the Partners of the eligibility conditions specified in this section.

In case of projects implemented in partnership with one or several entities, it is mandatory for the Applicants to submit with the Application form a **Partnership Declaration** (Annex 4) signed with the Partner/s (including Partners from Donor States). The Partnership Declaration shall be in English in the case of projects implemented in partnerships with entities from other countries than Romania and Moldova.

The Applicant coordinates the implementation of the project and, in case it is selected for funding, will represent the Partners and will sign the grant contract. Eligibility of costs generated by the Partners must respect the same rules that apply to the costs generated by the Applicant.

A project partnership shall not be mistaken for sub-contracting. Project partners always share a common economic or social goal through the implementation of the project, and partners cooperate throughout the entirely project realisation. Sub-contracting is aimed at one (or perhaps several) specific deliverables, e.g. services or equipment in order to realise a specific activity within the project. Sub-contracting shall always be carried out based on appropriate service or purchase contract, according to the applicable public procurement rules as defined below in section 5.1. General principles of the eligibility of costs.

Applicants may collaborate in implementing the project with informal or *ad hoc* local groups, self-help organizations (including grassroots organizations) – that are not registered legal entities in Romania. They are **Collaborators** and must meet the following requirements: are not for personal profit, act for public good, are voluntarily and non-discriminatory in nature, are independent of local, regional and national government and other public entities, political parties, religious institutions and commercial entities. **Collaborators** cannot be a direct recipient of the project grant and will not be able to conclude expenses in their own name¹. For collaborators it is not necessary to conclude and submit a Declaration of Partnership.

Partners and Collaborators shall have the capacity to implement relevant activities within the project. The Applicant will present in the project proposal the added value brought by the involvement of Partners and Collaborators in the implementation of the project.

4.5. Grant rate and co-financing

The project grant rate	can be up to 100% of the total eligible costs of the project
	When determining the grant rate, the Applicant will take into account: <ul style="list-style-type: none"> • the need to ensure its commitment and ownership, as well as the sustainability of the project; • any economic benefit (e.g. cost savings or increased profit resulting from receiving a financial contribution). Economic benefits shall be used in a manner which supports the long-term objectives of the project.

¹ The expenditure related to the involvement of the informal group shall be borne by the project promoter.

In case **co-financing is provided**, it can be in form of cash and/or in-kind contribution, in the form of voluntary work.

In cases where co-financing is ensured in cash, it is preferable to be from sources such as donations, sponsorships, membership fees, etc. and not through other projects/grants. The project cannot be co-financed by other programmes of the EEA and Norway grants, European funds or European Union budget nor other type of in-kind contribution.

For the calculation of in-kind contribution in the form of voluntary work, the Applicant and project partner/s will take into account the actual time allocated for the implementation of the project (in hours/month) and the price shall be set in the range of the minimum gross hourly wage in Romania and the average gross hourly wage in Romania (valid for 2020), including the employer's social contribution, depending on the character of the delivered work. The Applicant should provide justification for establishing the corresponding price of the voluntary work hour. For project partner/s whose primary location is in one of the Donor States or other Beneficiary States or countries outside EEA with a common border with Romania, the range in the respective country will be applied.

Please note that the in-kind contribution cannot be provided by a staff member who has, at the same time, an individual employment contract concluded with the Applicant or project Partner/s for the same type of responsibility.

In case in-kind contribution in the form of voluntary work is provided, it should be included in the project budget and must comply with the general principles on the eligibility of expenditures.

4.6. Limitations

Eligible Applicants or partners cannot receive more than **550,000 Euro in total** support from the Programme or be involved in more than **4 projects** during the course of the Programme, excluding any grants in rapid response to emerging needs and any support received through the Fund for Bilateral Relations and the Regional Civil Society Initiatives².

During the selection stage, the FO will verify, at Programme level, the compliance with the limitations mentioned above for the projects recommended for funding by the Selection Committee, for which there are funds available within the Call. In case of a project where a partner does not respect the maximum number of projects allowed to be funded at Programme level, the Selection Committee could decide not to select the respective project for funding (and justify the decision) or to select it and request the replacement of the project partner that does not respect the rule. In case of a project where a partner does not respect the rule related to the maximum amount to be contracted at Programme level, the Selection Committee could decide not to select the respective project for funding (and justify the decision) or to select it and request the Applicant to propose a solution such as to ensure that the rule is respected. In case an organization has several projects with an average total score above 65 points, is breaking the limitations at Programme level, the Selection Committee will decide which of the projects will be selected for funding based on their relevance and contribution to the Programme.

An Applicant can submit **maximum two project proposals** for the **Round 2** under the **Call #8**. There are no restrictions regarding the number of project proposals submitted in which an organization participates as partner.

In case an Applicant submits more than two project proposals under the Call #8, the FO will request the Applicant to indicate the applications that will enter the administrative and eligibility verification in order to comply with the limitation established. If the Applicant does not respond in 5 days from the receipt of the FO request, all its applications will be rejected and none of them will enter the administrative and eligibility verification.

5. Eligibility of costs

! Attention

This chapter is completed by the provisions of the Annex 2b - Guidelines for budgeting which is an integral part of the Guidelines for Applicants. If there are different provisions between this Guidelines and the Annex 2b - Guidelines for budgeting, the provisions from the latter will prevail.

5.1. General principles on the eligibility of costs

Eligible expenditures of projects are those actually incurred by the project promoter and/or the project partner, which meet the following criteria:	
<input checked="" type="checkbox"/>	they are incurred between the first and final dates of eligibility of a project as specified in the grant contract;
<input checked="" type="checkbox"/>	they are connected with the subject of the grant contract and they are indicated in the detailed budget of the project;
<input checked="" type="checkbox"/>	they are proportionate and necessary for the implementation of the project;
<input checked="" type="checkbox"/>	they are used for the sole purpose of achieving the objective of the project and its expected outcome/s, in a manner

² For more information on the Fund for Bilateral Relations and the Regional Civil Society Initiatives, please consult <https://activecitizensfund.ro>

	consistent with the principles of economy, efficiency and effectiveness;
<input checked="" type="checkbox"/>	they are identifiable and verifiable, in particular through being recorded in the accounting records of the project promoter and determined according to the applicable accounting standards and generally accepted accounting principles;
<input checked="" type="checkbox"/>	they comply with the requirements of applicable tax and social legislation.

Expenditures are considered to have been incurred when the cost has been invoiced, paid and the subject matter delivered (in case of goods) or performed (in case of services and works). Exceptionally, costs in respect of which an invoice has been issued in the final month of eligibility are also deemed to be incurred within the dates of eligibility if the costs are paid within 30 days of the final date of eligibility. Overheads and depreciation of equipment are considered to have been incurred when they are recorded on the accounts of the project promoter and/or project partner.

The internal accounting and auditing procedures of the project promoter and partner/s must permit direct reconciliation of the expenditures and revenue recorded in the analytical / cost center accounting of the project with the amounts reported in the financial statements on the project and supporting documents.

5.2. Direct costs

The eligible direct expenditures for a project are those expenditures which are identified by the project promoter and/or the project partner, in accordance with their accounting principles and usual internal rules, as specific expenditures directly linked to the implementation of the project and which can therefore be booked to it directly.

The following direct expenditures are eligible provided that they satisfy the eligibility criteria previously mentioned (section 5.1. General principles on the eligibility of costs):

➤	costs of personnel assigned to the project, comprising actual remuneration including social security charges and other statutory costs as applicable, provided that this corresponds to the project promoter's and project partner's usual policy on remuneration;
➤	travel and subsistence allowances for personnel and volunteers taking part in the project, provided that they are in line with the project promoter's and project partner's usual practices on travel costs;
➤	costs of new or second hand equipment provided that it is depreciated in accordance with generally accepted accounting principles applicable to the project promoter and generally accepted for items of the same kind. Only the portion of the depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project may be taken into account and included in the project budget. In case the promoter has clear arguments that the equipment is an integral and necessary component for achieving the outcomes of the project, the entire purchase price of that equipment may be eligible;
➤	costs of consumables and supplies, provided that they are identifiable and assigned to the project;
➤	costs entailed by other contracts awarded by a project promoter for the purposes of carrying out the project, provided that the awarding complies with the applicable rules on public procurement;
➤	costs arising directly from requirements imposed by the project contract.

Costs related to construction, reconstruction, renovation, or refurbishment of a real estate **shall not exceed 50%** of the eligible direct cost of the project.

Where the entire purchase price of equipment is eligible the applicant must ensure that:	
<input checked="" type="checkbox"/>	keeps the equipment in its ownership for a period of at least five years following the completion of the project and continues to use the equipment for the benefit of the overall objectives of the project for the same period;
<input checked="" type="checkbox"/>	keeps the equipment properly insured against losses such as fire, theft or other normally insurable incidents both during project implementation and for at least five years following the completion of the project; and
<input checked="" type="checkbox"/>	sets aside appropriate resources for the maintenance of the equipment for at least five years following the completion of the project.
The specific means for the implementation of this obligation will be specified in the grant contract.	

! Attention

It is mandatory for all Applicants to include in the Project budget (Annex 2a), under Activity 1 Project management, costs related to participation to trainings and meetings provided by the Fund Operator during the implementation of the project (accommodation, transport, per diem). A minimum of 4 trainings with duration of 2 days each for 2 persons should be taken into consideration.

As a general rule, for purchases and contracts awarding within the grant contracts, national and European Union legislation on public procurement shall be complied with.

For purchases with a value of 5,000 Euro or higher, the project promoter/partner shall invite at least three suppliers/service providers to submit offers. The contract should be awarded to the bid offering the best value for money or the lowest price (as appropriate). The entire selection procedure should be documented.

5.3. Indirect costs

Indirect costs are all eligible costs that cannot be identified by the Applicant and/or the project partner as being directly attributed to the project but which can be identified and justified by its accounting system as being incurred in direct relationship with the eligible direct costs attributed to the project. Indirect costs of the project shall represent a fair apportionment of the overall overheads of the project promoter or the project partner. They may not include any eligible direct costs. Project promoters and project partners may apply a **flat rate of up to 15% of direct eligible personnel costs of the project** to cover indirect costs, commensurate with the real indirect costs need.

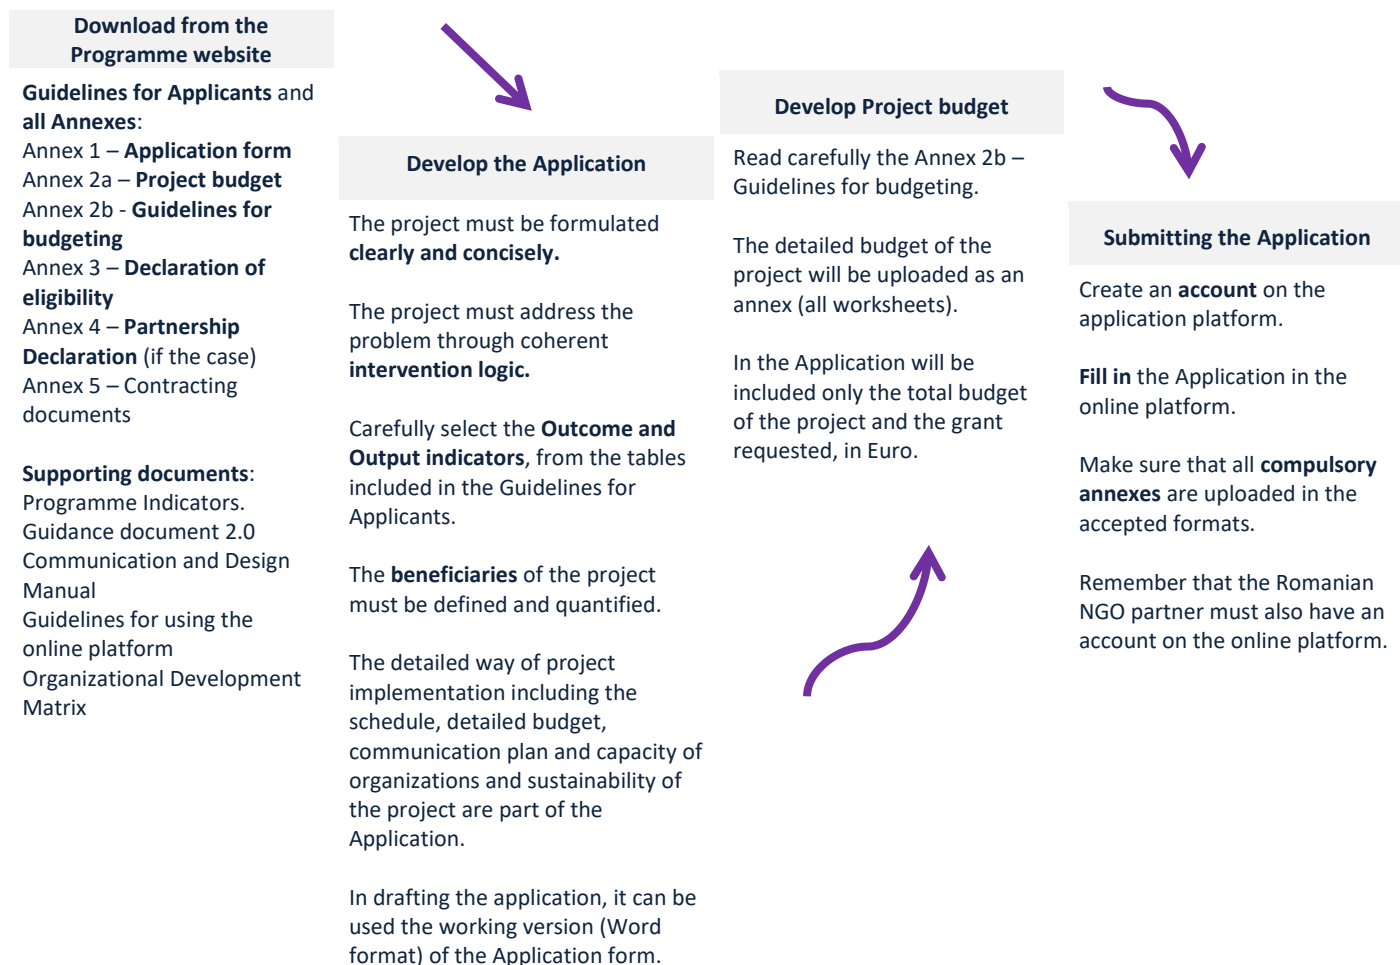

In case of project partners that are international organisations, or bodies or agencies thereof, indirect costs may be identified in accordance with the relevant rules established by such organisations.

5.4. Excluded costs

The following costs shall not be considered eligible:	
<input checked="" type="checkbox"/>	interest on debt, debt service charges and late payment charges (e.g. costs for loans taken in connection with the project, penalties / taxes related to late payment of invoices, penalties and interest for late payment of contributions and taxes to the state budget, etc.);
<input checked="" type="checkbox"/>	charges for financial transactions and other purely financial costs, except costs related to the special accounts of the project requested by the Fund Operator, provided they are mentioned in the grant contract and the costs of the financial services imposed by the grant contract;
<input checked="" type="checkbox"/>	costs related to purchase of land or real estate: ONLY the costs related to the construction, reconstruction, renovation or modernization of a building can be considered eligible, but will not exceed 50% of the directly eligible cost of the project;
<input checked="" type="checkbox"/>	provisions for losses or potential future liabilities;
<input checked="" type="checkbox"/>	exchange losses;
<input checked="" type="checkbox"/>	recoverable VAT, according to the legal regulations in force;
<input checked="" type="checkbox"/>	costs that are covered by other sources; double financing must be avoided (e.g. if the full value of a previously purchased equipment was financed from another grant, the depreciation of this equipment cannot be the eligible expenditure within the project);
<input checked="" type="checkbox"/>	finances, penalties (ex. fines imposed by public bodies due to the lack of security measures on the site of a building, parking fines, fines for late payment) and costs of litigation, except where litigation is an integral and necessary component for achieving the outcomes of the project;
<input checked="" type="checkbox"/>	excessive or reckless expenditure (these must be taken in relation to the principle of eligibility of expenses according to which they must be "proportionate and necessary for the implementation of the project" - (e.g. business travel class, purchasing state of the art equipment where cheaper options would cover the same need);

6. Preparation, submission and registration of project applications

Only applications submitted before the deadline in the prescribed format with all the annexes and in an electronic version via platform <http://finantariublice.fdsc.ro> will be evaluated. In order to submit an application it is necessary to follow the next steps:

All applications received under this Call for project proposals will enter into the evaluation and selection procedure as follows:

9.1. Verification of administrative compliance and eligibility

All applications submitted within the deadline mentioned in the present Guidelines for Applicants will be assessed according to the administrative and eligibility criteria, based on a Yes/No grid. The assessment of eligibility will be conducted only for the applications that are compliant with the administrative criteria.

Requests for clarifications will only be sent when the information provided is not clear enough and sufficient to allow an objective assessment of the administrative compliance and eligibility of the application. Please note that documents mentioned under the section 6. Preparation and submission of project Applications cannot be requested in case they are already missing from the online application package.

Below is the grid for administrative compliance and eligibility:

I. ADMINISTRATIVE COMPLIANCE	Yes	No

a. The online Application Form (Annex 1) is filled in Romanian, including the summary in English and is complete (all compulsory fields are filled in)		
b. The project Budget is filled in, respects the format from Annex 2a, is provided in Euro and is uploaded (in Excel format)		
c. The Applicant's Declaration of Eligibility (Annex 3) is filled in, signed and uploaded (scanned format)		
d. Partnership Declaration/s (Annex 4) is filled in, signed by the Applicant and Partner/s and uploaded (scanned format), if the case		
The assessment of eligibility will be conducted only for the applications that are compliant with the administrative criteria.		
II. ELIGIBILITY	Yes	No
1. The Applicant is eligible		
2. Partner/s is/are eligible		
3. The project falls into the types of grants (amount, duration) that can be awarded within the current Call for proposals		
4. The project observes the cumulative conditions related to the targeted communities by this Call		

Note:

In case of inconsistencies between the amounts mentioned in the Application form and those included in the Project budget (Annex 2a), those from the Project budget (Sources of funding) will be taken into consideration.

The Application is automatically excluded from further evaluation if one or more administrative and eligibility criteria were not met.

The Applicants will be notified via e-mail regarding the result of the administrative and eligibility verification.

After receiving the notification, Applicants may **appeal the decision over compliance with administrative and eligibility criteria** within **10 calendar days** from the notification date of the results, to apel8.rural@romacenter.ro. The appeal will be formulated in writing and will include the reason for which such a request is well justified. The contestant cannot submit new documents in support of the case and cannot modify the content of the initial submitted application. The FO will take into consideration only the appeals submitted by the legal representative of the Applicant or by the person empowered on his behalf. The FO's decision after appeal is final and will be communicated to the Applicant within 15 working days from the receipt of the appeal. No further appeal on the same application could be formulated afterwards.

A list of applications that entered in the technical and financial evaluation phase will be published on the Programme's website (<https://activecitizensfund.ro>).

9.2. Technical and financial evaluation

Each application that meets the eligibility and administrative criteria will be scored on a scale from 0 to 100, by two impartial evaluators (at least one of them independent from FO). The evaluation process is based on the evaluation criteria with scores. The score 65 out of 100 points is the minimum score for each application in order to be proposed for financing. The final total score is an arithmetic average of points given by both evaluators.

In case the difference between the scores given by the two experts is more than 30% of the higher score, the Application will be scored by a third impartial and independent evaluator. The average total score of the two closest scores shall be used for the ranking of the projects.

If the score given by a third expert would not in any way result in recommending the application for financing, a third expert will not be appointed.

The evaluation is performed in **two stages**, as follows:

- the **first stage** is focused on evaluating the dimension "*1. Project relevance and coherence*". For this dimension is set a **threshold score of 23 points**. There are three situations:

(1) Both scores given by the two evaluators are above the minimum threshold set for the dimension " <i>1. Project relevance and coherence</i> ",	(2) Both scores given by the two evaluators are below the minimum threshold set for the dimension " <i>1. Project relevance and coherence</i> ",	(3) One score given by one evaluator below the minimum thresholds (evaluation stops) and the other score given by the other evaluator above the minimum threshold set for the dimension " <i>1. Project relevance and coherence</i> " and score the entire project
The project enters the second evaluation stage and the Application is further evaluated.	The project is considered rejected and does not enter the second evaluation stage (the application is no further evaluated). The average score for the dimension " <i>1. Project relevance and coherence</i> " shall be used for the ranking of the projects.	The Application will be scored by a third impartial and independent evaluator. The average total score of the two closest scores shall be used for the ranking of the projects.

- the **second stage** consists in evaluating the rest of the dimensions. In this stage there are two thresholds:
 - Dimension "*2. Methodology and feasibility of the project*" - **15 points**
 - Dimension "*4. The budget of the project*" - **5 points**

If an Application has a total average score of 65 points or above, but any of the average scores for the dimensions "*2. Methodology and feasibility of the project*" or "*4. The budget of the project*" does not meet the respective threshold, it will not be recommended for financing.

9.3. Selection Committee

Following the technical and financial evaluation, a ranking list will be produced based on the average scores awarded by the experts and an evaluation report will be drafted. It will comprise the list of all the Applications that have entered the technical and financial evaluation stage, the average score obtained by each of them and the recommendations of the evaluators.

The evaluation report, including the ranking list, will be submitted by the FO to a **Selection Committee** consisting of independent experts and representatives of the FO Consortium with relevant expertise and experience. At this stage, representatives of FMO, the Royal Norwegian Embassy and the National Focal Point in Romania are observers. Also, representatives from relevant institutions (ministries, governmental agencies etc.) may be invited as observers.

The **Selection Committee** will review the ranking list and the recommendations made by the evaluators and will recommend to the FO the applications to receive grants, within the amount available for the Call for project proposals. The conclusions of the **Selection Committee** may include conditions, clarifications and a reserve list with the project applications that are recommended to receive grants, but cannot be supported at the time of the decision due to lack of funding.

The **Selection Committee** may amend and modify the ranking of the project applications in justified cases (**including for ensuring the respecting of the limitations at Programme level of maximum 550,000 euro and 4 projects per organization as Applicant or Partner**).

9.4. Executive Board

An **Executive Board** of the Programme is responsible for taking the final decision concerning the selection of applications. The Executive Board may modify the decision of the Selection Committee in justified cases. If such a modification results in a rejection of a project that otherwise would have been approved, the affected Applicant will be informed in writing about the justification for the modification.

The decision of the Executive Board is definitive and is not subject to appeal.

9.5. Announcing the results

Once the final decision is taken, the result of the selection process for both successful and unsuccessful Applicants will be accessible online, in the organisation's account (the average score obtained for each evaluation criterion and also the total average score of their application). Applicants will be informed via e-mail on the fact that the selection results are available in the organisation's account.

Upon request, unsuccessful Applicants and applicants whose applications are on the reserve list will be provided with more detailed feedback on the assessment of their application.

Applicants who have projects proposed for funding will be informed on the conditions they have to fulfil in order to sign grant contracts.

The final list of selected projects and promoters will be uploaded on the Programme's website <https://activecitizensfund.ro> for the specific Call.

9.6. Complaints Committee

A **Complaints Committee** is established at the level of the Programme and is composed of three members. The objective of the Complaints Committee is to provide an accessible, transparent and consistent mechanism for complainants to express concerns regarding a supposed occurrence of mismanagement at the level of the Programme.

The decisions related to the administrative compliance and eligibility verification as well as the decisions related to the selection process is not subject to verification by the Complaints Committee.

10. Project contracting

11. Reporting, payments and audit

11.1. Procedures for reporting from project promoters

Each project promoter has to submit to the FO the following types of reports:		
<p>INTERIM</p> <p>Technical and Financial reports within 30 calendar days after spending at least 70% from the advance/ instalments.</p>	<p>FINAL</p> <p>Technical and Financial reports within 45 calendar days from the end of the project implementation period</p>	
<p>Statistical progress reports four times per year, with following deadlines: 20 January, 20 March, 20 August and 20 October</p>		
<p>The number and frequency of the interim reports are determined by the project duration as follows:</p>		
<p>6 – 12 months (including 12 months)</p> <p>▼</p> <p>ONE INTERIM REPORT</p>	<p>12-20 months (including 20 months)</p> <p>▼</p> <p>UP TO 2 INTERIM REPORTS</p>	<p>20-24 months (including 24 months)</p> <p>▼</p> <p>UP TO 3 INTERIM REPORTS</p>

Technical reports will contain information on the achieved results and implemented activities, progress towards achieving indicators, sustainability, etc.

Financial reports will contain information on the expenses made by PPs and partners during the reported period of time in order to implement the project.

Interim payments are conditioned by the submission of interim technical and financial reports by the Project Promoter and their approval by FO. Together with the final technical and financial reports, they will serve as the basis on which the final project balance will be calculated.

In case of projects with the implementation period from **6 up to 12 months** (including), the interim reports (technical and financial) have to be submitted to FO no later than 30 calendar days after the middle of the project implementation period.

! Attention

In case the middle term interim report does not include expenditures of at least 70% of the advance payment, the PP cannot ask for the entire interim payment. However, the PP has the possibility to submit an additional interim report, proving that the 70% threshold was reached, in order to receive the difference of the interim payment.

In case of projects with the implementation period from **12 up to 24 months**, the interim reports (technical and financial) have to be submitted to FO as follows:

- first interim report (technical and financial) - within 30 calendar days from spending at least 70% of the advance payment;
- next interim reports (technical and financial) - within 30 calendar days from spending at least 70% of the difference between the funds actually received and the eligible expenditure validated by the FO

$$=70\% \times (\text{advance payment} + \text{interim payment(s)} - \text{eligible expenditures from the previous reported period/s})$$

! Attention

The last interim technical and financial report will be submitted to the FO no later than three months before the end date of the project implementation.

The FO reserves the right to request other intermediate technical and/or financial reports, if considered necessary for the monitoring of the implementation of the projects.

The PPs are requested to submit to FO, during **contracting phase** or **within the first month** of contract implementation, an **estimated schedule** of the submission of the interim reports (and of the amounts to be requested per report, if the case) and to inform FO in case there are changes to this schedule (changes in amount or changes in due dates of the interim payments).

Statistical Progress Reports (SPR) which consist in brief information regarding the progress registered as regards both the indicators and expenses will be requested from all PPs. SPRs do not have to be accompanied by supporting documents.

11.2. Payments procedures

The payment system ensures a **positive financial flow** for the projects, while minimising as much as possible the risks related to difficulties/impossibility to recover the unspent amounts from the PPs. Payments to project promoters will be made in Euro (to project dedicated Euro bank accounts indicated by themselves and mentioned in the grant contract) and reporting will be made at the InforEuro rate³ corresponding to the month when the expense was committed/invoiced (e.g. date of the invoice not the date of the actual payment).

Every project promoter has the obligation to open two dedicated bank accounts for the grant contract it signs with the FO, as follows: an Euro account in which it will receive the grant contract related payments in Euro from the FO and a national currency (RON) account in which they will transfer the equivalent in national currency of the funds received in the Euro account. Both accounts will be indicated in the grant contract.

In case of projects implemented in partnership, each Romanian project partner that manages any amount of the grant has the obligation to open a dedicated Euro account where they will receive the grant from the project promoter and also a dedicated national currency account (RON) for the project.

The PPs and the Romanian project partners have to use the RON dedicated bank account for all payments related to the project implementation. As an exception, the payment of salaries related to the personnel that is not 100% allocated to the project and the payment of the indirect costs can be made from the general account of the organization, with the obligation to reconcile the transfers between accounts by the end of the month following the one in which the payments were made.

In case of projects implemented in partnership with entities whose primary location is outside Romania, it is recommended for those Partners to have two dedicated accounts for the project: one in Euro and the other in the national currency (if different from Euro). The partners may decide not to open dedicated accounts. In both cases the Partnership Agreement should specify the Partner account/s used for the project.

Payments of the project grant to project promoters may take the form of advance payments, interim payments and payments of the final balance. The maximum amount of the advance payment as well as the number and value of the interim payments will be differentiated according to the duration of the project and will be clearly stated in the grant contract.

The table below summarises the main payment methods applicable within ACF Romania, based on project duration:

Project duration	Maximum advance payment percentage	No. of interim payments	Interim payment percentage	Maximum percentage of the balance
from 6 months to 12 months (including)	40%	1 (one)*	50%	10%
from 12 months to 20 months (including)	30%	2(two)	30%	10%
from 20 months to 24 months (including)	30%	3 (three)	20%	10%

* Except when the PP submits two interim reports and the interim payment is split in two payments based on these two reports

³ InforEuro rate is published on http://ec.europa.eu/budget/contracts_grants/info_contracts/infoeuro/index_en.cfm

In cases of projects that have been assessed as posing a high risk for the programme⁴, the FO may make a justified decision to change the payments scheme (reducing pre-financing or exceptionally, applying a scheme without pre-financing under which the FO reimburses project promoters only the amount of grant expenses verified by the FO).

The payment method shall not change in case of extension of project grant contracts based on addendum, unless otherwise specified in the respective addendum. As a general rule:

Payments general rule		
Advance payments	Interim payments	Final payment / Reimbursement by the PP
To be paid up to 10 working days after the date of the grant contract signature, unless a later date has been set in the project contract.	To be paid up to 10 working days after date of FO approval of interim reports and payment claims.	To be paid by the FO up to 10 working days after the date of FO approval of the final report and payment claim. The reimbursement is to be paid by the PP (in case of negative balance) up to 10 working days after the date of receiving from the FO the notification regarding the amount to be reimbursed.

11.3. Proof of expenditure and audit

For Applicants and Romanian partners an audit report will not be accepted by FO as sufficient evidence of the expenses involved. Costs incurred by project promoters and project partners shall be supported by receipted invoices, or alternatively by accounting documents of equivalent probative value. Indirect costs identified according to section 5.3 do not need to be supported by proof of expenditure.

A report by an independent auditor, qualified to carry out statutory audits of accounting documents, certifying that the reported costs are incurred in accordance with the Programme rules, the national law and relevant national accounting practices will be accepted by the Fund Operator as sufficient proof of expenditure incurred for **project partners whose primary location is outside Romania**⁵ or project partners that are **international organisations or bodies or agencies thereof**.

The financed projects might be audited in the context of a compliance audit commissioned by the FO.

The FMO could also organise audits and on-the-spot verification for Programme and projects and EFTA Board of Auditors/Office of Auditor General of Norway may conduct audits of the Programme and projects.
