

Applications recommended for funding
Call #11 - Strategic support for capacity building of NGOs
Single round

In the below tables can be consulted the lists of Applications recommended for funding under Call #11, including the reserve list.

Applications selected for funding according to the available allocation will be contracted only if they meet both the eligibility conditions after analyzing the documents (more information can be found in the Guidelines for Applicants) and the general and specific conditions approved by the Selection Committee and the Executive Board.

The Reserve List consists of Applications with an average total score equal to or greater than 65 points, but lower than the score of the last Application selected for funding and for which the limited budget allocated to this round does not allow funding. They will be able to be financed if available funds are identified. The final list of projects funded under Call #11 will be published on the Program's website after all funding contracts have been signed.

Note:

* In the case of projects that have the same score, their subsequent ranking is made according to the score obtained at the following dimensions of evaluation from the Grid, in the following order:

1. The project relevance and coherence;
2. Methodology and feasibility of the project;
3. Applicant and Partner(s);
4. The budget of the project;
5. Sustainability.
